Mr. Theodore I. Gunderson Federal Bureau of Investigation Dallas, Texas

Dear Ted:

Your note of May 31, 1977, has been received and I am deeply grateful for your complimentary remarks concerning our inspection process.

Today, more than ever, it is imperative that our inspections be a cooperative effort between the field and FBI Headquarters. We all share a common responsibility to insure the integrity of all phases of our operation, and the Office of Inspections has been moving in new directions in an effort to make inspections more responsive to the overall needs of the FBI.

	Supportive com	ments such as yours are	certainly appreciated.

Dear Mr. Kelley: Gunderson, Th

As you are aware we just finished our first inspection under the new procedure. There is no question, it is by far more effective, realistic and productive than the "old" routine.

Instead of making an issue of form errors it provides Headquarters and the SAC a realistic picture of the overall operation and procedures of the Division and is extremely effective in furnishing us information concerning our manpower needs, and problems. Glad you and some of our other leaders at the Bureau had enough foresight to initiate these new proceedings.

Letter to SHC Dundown 6-14-17 RBK John

I might add an excellent job as your representatives.

FROM B. REVELL

SUBJECT: THEODORE L. GUNDERSON SPECIAL AGENT IN CHARGE

DALLAS DIVISION PERSONNEL MATTER

The Director instructed that it be determined if there is any indication that the Department of Justice is pursuing an inquiry into the conduct of SAC Gunderson while he was ASAC in New Haven in regard to a civil suit alleging improprieties in conjunction with the investigation of the Black Panther Party.

A review of SAC Gunderson's personnel file and contact with Deputy Assistant Director Thomas M. Johnson, Office of Professional Responsibility, reveals that the Department has not undertaken any criminal investigation concerning this matter and apparently has no intention to do so due to the ambiguities of the allegations and the statute of limitations. Mr. Johnson's letter to Mr. Shaheen of the Department dated July 7, 1977, sets forth the Bureau's position in regard to this matter. (copy attached)

Inquiry with Deputy Assistant Director James Farrington, Legal Counsel Division, determined that SAC Gunderson has not been subpoenaed to testify before the New Haven Police Board nor has he been deposed by any party to the hearings being conducted by the Board. However, SAC Gunderson is a party in his official capacity and as an individual to the civil suit filed by ACLU attorneys in U. S. District Court of the District of Connecticut. SAC Gunderson has categorically denied the knowledge of wiretapping by the New Haven police or ever having been in the particular location while the alleged wiretapping was taking place or where there was any equipment which was being used for wiretapping. SAC Gunderson's teletype to the Director and New Haven dated June 29, 1977 (attached) sets forth his denial of any specific knowledge of illegal wiretapping by the New Haven Police.

Mr. Theodore L. Gunderson Federal Bureau of Investigation Dallas, Texas

DearMr. Gunderson:

Your headquarters are changed for official reasons from Dallas, Texas, to Los Angeles, California, as Special Agent in Charge of the Los Angeles Office, effective upon your arrival there on or after this date. Travel and transportation expenses and applicable allowances and benefits for you and your dependents incidental to this transfer as provided by the Administrative Expenses Act of 1946, as amended; General Services Administration Federal Travel Regulations dated May, 1973, and implementing regulations prescribed by this Bureau, shall be paid to you or on your behalf. However, before these expenses can be paid by the Government you must agree in writing (Bureau Form 3-34b) to remain in the service of the Government for one year following the first day you report for duty at the new station. If you are being transferred to a duty station outside the continental United States only the written agreement form, FD-382, need be executed. You are reminded that pursuant to Internal Revenue Service regulations, certain moving expenses paid incidental to this transfer are subject to an income tax.

PERSONNEL CHANGE Las Angeles Field Off.

PURPOSE: To recommend replacement in the position of ADIC, Los Angeles

for Robert E. Gebhardt, who is retiring effective 9/23/77.

POLICY:

Recommendations concerning the filling of vacancy in the ADIC position originate in the offices of the Associate Director or the

Director.

RECOMMENDATION:

That SAC Theodore L.XGunderson, Dallas Office, be transferred to the Los Angeles Office and designated Assistant Director in Charge of that Office at no change in grade or salary at this time.

raced - To be designed eniar Special again ADIZ, Los Angeles Office has submitted his application for retire-

ment to be effective 9/23/77, and it is necessary to replace him. It is being recommended that SAC Theodore L. Gunderson, Dallas Office, be transferred to Los Angeles and designated ADIC. SAC Gunderson and SAC. Detroi Robert E. Kent, were both considered for this position. Deputy Associate Directors Adams and McDermott both felt that SACs Gunderson and Kent were fully qualified for the position. Mr. McDermott recommended SAC Kent as first choice and SAC Gunderson as second; Mr. Adams felt they were equally qualified. I feel both are fully qualified but that SAC Gunderson is somewhat better qualified due to greater experience as ASAC and SAC. SAC Gunderson received outstanding performance ratings for the past three years, and during inspection of the Dallas Office (4/25-5/11/77) his administration of the Dallas Office was found to be exemplary. Dear Ted:

I join your great host of friends in Texas on expressing regret that you are leaving Dallas, for a nice promotion to Senior Special Agent In Charge F.B.I., Los Angeles.

I want to specifically thank you for the very fine cooperation and day to day assistance we have enjoyed in NATB from working with your personnel.

Additionally, I personally am indebeted to you for the wonderful support and assistance you gave me in our mutual endeavors in the Texas Police Association.

We dislike seeing you "move on" for personal reasons, but we recognize the importance of the future both to you and the f.B.I.

You are being "promoted" now and I'm sure you will be again and again.

Congratulations and very best wishes. REC-149 67-493471-338

Dear Ted:

As a former U.S. Attorney who is on the other side of the docket, I look on your leaving to go to Los Angeles with mixed emotions. I know that it is a promotion, but I feel a personal loss and a loss to law enforcement in this area because of your transfer.

In the short period of time that you have been in Dallas, you have made a number of significant cases and contributions to Texas law enforcement.

It was a pleasure working with you as well as on the other side of the docket. I hope that we cross in the future and if you are ever in Fort Worth, I shall be disappointed if you don't drop by for coffee!

My best regards,

Classic, Memphis, Tennessee, called me on August 30, 1977, and mentioned he had heard of my transfer to Los Angeles, asked if it would be possible for California. me to be the Liberty Bowl representative with the Pac-8 Conference. The position does not involve any remunerations, but is honorary in nature. As the Liberty Bowl Pac-8 representative, I would attend football games on occasion and incidental to this would meet and talk with presidents AUG 28 1979 of these schools, the athletic directors, coaches and other school officials. I would not indicate to the school officials any preferences on the part of the Liberty Bowl in choosing one school over another for the annual classic, but would merely operate in a public relations capacity and report my opinions back to the Liberty Bowl on a confidential basis concerning the performance of the football teams in that conference. I would not in any way be involved in a controversial situation or problem. REC-143 67-7

I am sure it would generally be known L am in charge of the Los Angeles Office and I would be able to make numero contacts with prominent individuals in the educational field which would be of benefit to the FBI from a public-relations standpoint.

Naturally, it will not interfere with my overall responsibilities as Agent in Charge of the Los Angeles Division.

Dear Clarence:

Re: Theodore L. Cunderson
Special Agent in Charge, Dallas

Although we were all delighted to learn of Ted Gunderson's fine recognition in being transferred to Los Angeles, all of us who have had the privilege of knowing him here will miss him very much. Ted has done an outstanding job in both law enforcement and civil involvement and has gained many friends for the Bureau at a time, I think all of us will agree, we needed. We will look forward to assisting James A. Abbott when he arrives here in "Big D."

joins me in sending our best wishes to you and Mrs. Kelley and hope that we get to see you both in Kansas City in late September. I am sure that in many ways you are looking forward to less rigorous days ahead.

Again, I would like to express my thanks for the tremendous leader— ship you have exerted during your tour as Director and wish for you 1577 the best of success, good health and pleasant living in the days ahead.

I have never had the pleasure of meeting Judge Johnson, the Director designate, but hope that all of us can continue to maintain the same degree of interest in the Bureau in the days ahead that we enjoyed in the past.

SYNOPSIS AND DETAILS:

AUG 28 1979

On September 9, 1977, Associate Director Held referred to me the attached letter sent by SAC Gunderson to the Director dated September 2, 1977. The Director noted on SAC Gunderson's letter, 'Research and advise please - I feel he would have to be gone quite a bit and doubt the advisability."

The Director's inquiry requires a consideration of questions of ethics, Bureau policy, and law. The ethical question is whether an SAC should enter into an arrangement whereby he will benefit personally and directly and there is potential that FBI jurisdiction could involve him in an investigation of the activity in which he plays a contributing role. One difficulty in making a judgment in that regard is estimating the probability that the FBI would investigate some aspect of the activity. In this instance, there appears to be potential investigative jurisdiction in 18 USC 224 "Bribery in Sporting Contests" and 18 USC 1084 'Interstate Transportation of Wagering Information." The Director may want to discuss this concern with the SAC before making his decision whether to approve participations tion in the activity by the SAC. REC-143

The Bureau policy question is whether the arrangement is sufficiently beneficial to the FBI to justify allowing the SAC to undertake the activity during working hours or to limit his availability during nonworking hours. To aid him

Memo Legal Counsel to the Director

Re: Proposed Service by SAC Ted L. Gunderson as

Liberty Bowl Pac-8 Representative

in considering this balance, the Director may want to have the SAC specify the amounts of time to be spent and the working hours that will be involved.

The legal question concerns the conflict of interest law, 18 USC 208 and the Attorney General's regulations, 28 CFR, Part 45 'Standards of Conduct." A criminal conflict of interest could occur if the SAC becomes involved in an FBI investigation in a particular matter which, to his knowledge, he has a financial interest or an organization with whom he is negotiating or has any arrangement concerning prospective employmenthas a financial interest. Should an FBI investigation begin involving the Conference, the teams, coaches, or other personnel of the Liberty Bowl, the SAC would have to consider disqualifying himself from acting as SAC in that investigation in order to avoid possible violation of the statute. This consideration does not present a legal bar to the SAC from accepting the position but it is a factor that should be known to the Director and understood by the SAC in making the decision.

The Attorney General's regulations generally prohibit acceptance of gifts, entertainment, and favors and similar gratuities from one whose interests may be substantially affected by the performance or nonperformance of the employee's official duty. However, exceptions are provided to allow acceptance of lunches or dinners of nominal value on infrequent occasions, acceptance of unsolicited promotional material of nominal intrinsic value, and receipt of reimbursement for actual expenses for travel and subsistence for which no Government payment or reimbursement is made. In this last exception, there is a limitation that prohibits an employee from accepting "excessive personal living expenses, gifts, entertainment or other personal benefits." In view of the detailed statements in these regulations, the Director may wish to consider a full statement of the gratuities to be received by the SAC in making his decision.

Finally, the Director's note indicated his concern that the SAC 'would have to be gone quite a bit and doubt the advisability." There is attached a list of the teams in the Pac-8, their locations, and the 1977 game schedule. The list indicates that two teams are located in Los Angeles and that their home games from September 30 would afford an opportunity to see all of the other Conference teams

Memo Legal Counsel to the Director Re: Proposed Service by SAC Ted'L. Gunderson as Liberty Bowl, Pac-8 Representative

at least once. The Director may wish to consider whether the SAC's participation may be limited to Los Angeles or whether he might be required to travel to other places in order to see the other teams.

RECOMMENDATION:

That the Director consider the several factors described in making his decision.

During FBI career he investigated many different types of criminal cases, including complicated accounting matters involving Fraud Against the Government, Bank Fraud and Embezzlement, National Bankruptcy Act, Court of Claims and Renegotiation Act. He has testified in U.S. District Court as an expert accountant witness.

As Supervisory Special Agent at Dallas from 3/64 to 2/69 he supervised domestic security cases and criminal matters. From 2/69 to 2/75 he coordinated recruitment of Clerical and Special Agent personnel throughout 132 county territory of Dallas Division. From 2/75 until retirement in 12/76, he handled accounting matters and administrative assignments such as speeches before various public groups. In 1975 he participated in 36 Bank Fraud and Embezzlement seminars presented to officers and employees of Federally insured financial institutions.

Mr. Gemberling is married and has one daughter, a Phi Beta Kappa, attending college.

AT DALLAS, TEXAS NOVEMBER 22, 1963

ROBERT P. GEMBERLING

Retired Special Agent
Federal Bureau of Investigation
(FBI)

THE LECTURE

Mr. Gemberling, at the direction of the Special Agent in Charge of the Dallas FBI Office, coordinated the FBI's investigation from its inception until his retirement in 12/76. He made investigative assignments; reviewed the results for accuracy, completeness and thoroughness; insured new leads were assigned and covered; and organized the material into reports to FBI Headquarters and subsequent dissemination to the Warren Commission.

Mr. Gemberling is available for lectures at colleges and before civic and professional groups after January 1, 1977.

For approximately 2 hours, including 20 to 30 minutes for questions, Mr. Gemberling's analysis will reveal facts—not fiction; truth—not theories; in a direct, common sense, non-political approach to a most controversial issue. He will cover, among other aspects, the following:

- 1) Scope of FBI's investigation.
- 2) Warren Report and its conclusions.
- 3) Anti-Warren Report Theories.
- 4) Political Probes.
- 5) Motives of Lee Harvey Oswald.
- 6) Should the case be reopened?

COST OF LECTURE

A fee of \$1,500 plus round trip first class air fare or its equivalent. Where use of personally owned or rental car is necessary, rate of 20¢ per mile will be charged. Reduced fee for multiple bookings in same week within approximate 100 mile radius:

\$1,250 each for 2 bookings;

\$1,000 each for 3 or more bookings.

TO ARRANGE FOR LECTURE

Contact Mr. Gemberling at 7106 Clemson Dr., Dallas, Texas 75214, telephone (214) 348-3906, indicating first and second choice of time and date. Upon acceptance, contract will be forwarded for approval and signature.

Re: ALLEGATION OF POSSIBLE MISCONDUCT

INVOLVING SAC THEODORE L. GUNDERSON

LA DIVISION

During one conversation between victim and subject , subject stated he had a friend who is the head of the FBI who knew the subject's deceased wife, Margaret, and that this FBI head had been divorced five years ago. On 3/14/78 victim was recontacted and made available handwritten notes made during telephonic conversations with Notes bore dates 1/9/78 through 2/28/78. A notation on 1/12/78 reflects "FBI. Ted - chief. Friend will stay at apartment until May." Another notation on 1/19/78 reflects " head of the FBI for West Coast. Ted Gunderson is from Minneapolis, had blind date for him. Made a fool of himself with the girl. Lonely - crying." Further on in the notes of the same day, 1/19/78, it was noted "FBI carried 38s and FBI head Gunderson talked about it with him. He is divorced. Out on date. Girlfriend had a bad time." Victim's notes consisted of eleven pages and deal with personal family problems including death of Margaret Spadaro.	b6 b7C
Subject is employed by the, California. At the time of victim Margaret Spadaro's funeral, father of Margaret Spadaro observed subject inject an unknown substance between his fingers with a syringe. FBI Los Angeles indices are negative regarding. I telephonically contacted the Los Angeles Division on 3/16/78 with instructions that a statement be obtained from SAC Gunderson regarding these non-specific allegations of personal misconduct. You will be kept advised of any pertinent developments in this matter.	b6 b7C

	SAC TED L. GENERSON  VICTIM  EXTORTION; INTERSTATE OBSCENE OR HARASSING TELEPHONE CALLS

The first part of January, 1978, I received a second phone call from He sounded depressed and subsequently b70 volunteered his wife had died unexpectedly over the holiday season, which was the reason he did not extend the invitation. I asked if there was anything I could do, and he replied he would enjoy having dinner some evening. I informed him because of his tragedy it would probably be good therapy if I arranged for a female escort. A lady whom I am dating arranged for one of her friends to join us, and the four of us had dinner. was the first time I had ever met him. Naturally during the course of our conversation various aspects of each of our lives were discussed, but there was no conversation of a personal nature. He mentioned he may have to move from his apartment, and I advised him if he needed a place to stay in an emergency he would be more than welcome to stay at my condominium until he could find suitable living accommodations.

I have not seen him since that evening. However, approximately three weeks ago he called and asked for the name of an attorney in the Long Beach area. At that time he stated Long Beach, where he was had dismissed him without adequate cause and he planned to sue. I provided him with the names of three attorneys who have excellent reputations in the Long Beach area, but advised I would not recommend anyone in particular.

This is the last time I had any contact with him.

My female escort is from Moorhead, Minnesota.
which explains the reference to that community in telephone conversations.

Mr. Gunderson has been assigned as the Special Agent in Charge of the Los Angeles Division since September 25, 1977. Prior to that, he was the Special Agent in Charge of the Dallas Division. In both the Dallas and Los Angeles Divisions, he has done an outstanding job in dealing with the media. He promotes high office morale and has proved his versatility in the operation and leadership of his offices. Mr. Gunderson has been decisive and selfless in his decisions. He is a forceful, aggressive administrator and is indeed deserving of an Outstanding performance rating.

- 1. The most successful anti-fencing operation in the nation's history, with 256 federal arrests and savings/recoveries exceeding 42 million dollars.
- 2. An undercover pornography/extortion investigation with indictments of five major organized crime figures and considerable national publicity.

3. Apprehension and arrest of (as an FPC case) in cooperation with culminating a three-year investigation of British fraud losses estimated at \$250,000,000.

4. Apprehension and arrest of five (two in Los Angeles, three in Houston) Weather Underground fugitives, culminating a seven-month investigation by Los Angeles.

Last week a KPOL Commentary cited the arraignment of three former FBI officials, and the quiet vigil of support by 1,000 Special Agents of the FBI in Washington, D. C.

KPOL noted these activities took place on Hitler's birthday; compared statements of FBI Agents to those of Hitler's SS troops; and mentioned Hitler executed six million Jews.

In addition to executing six million Jews, Adolph Hitler inaugurated World War II with his 1939 invasion of Poland, established the Nazi Party, became an absolute dictator, dehumanized his followers, condemned thousands of women and children to death, hated religion, and — in a word—became a curse to decent people everywhere. His bloody SS troops were notorious for having neither fear nor compassion. His concentration camps were rampant with torture, murder, and corruption.

KPOL's comparison by innuendo of Hitler and his SS troops to the FBI is unbelievable.

It is degrading to KPOL as well as the FBI.

It is unworthy of rebuttal.

#### Los Angeles County SHERIFF'S DEPARTMENT

## NEWS RELEASE

INFORMATION BUREAU • 974-4211 • 24 HOURS A DAY-

#### OPERATION "TARPIT"

anti-fencing operation in the nation's history. A combined force of Los Angeles County Sheriff's Deputies and agents of the Federal Bureau of Investigation have been cooperating in the operation since July 1, 1976. To date, they have saved and recovered property and contraband worth over 42 million dollars.

Those arrested face both local and federal charges for receiving stolen property and interstate transportation of stolen property. Other arrests made as a result of the lengthy investigations included robbery, grand theft and sales of narcotics.

Details of the long and complicated operation were discussed during a news conference today at the Hall of Justice. Ted L. Gunderson, Senior Special Agent in charge of the Los Angeles Office of the Federal Bureau of Investigation, and Sheriff Peter J. Pitchess said that they expect more arrests to be made as more cases are concluded.

Sheriff Pitchess attributed the success of the operation to "an effective use of skilled undercover personnel from (OVER)

participating agencies, a sensible use of reliable informants and a sharing of information developed by all law enforcement, agencies. It was a 'joint venture' in every sense of the word.

"We think we have injected one monstrous note of uncertainty into everyone who engages in the 'fencing' business. To keep them nervous, we should add that we expect the arrest figures to rise to close to 300.

"We were able to mount the operation through the assistance of Mr. James Golden, Director of the Enforcement Division of the LEAA, whose agency provided a \$450,000.00 grant.

"To appreciate how successful we have been, there were
47 similar operations in 35 cities throughout the country in
recent years. These operations netted, collectively, almost
74 million dollars. This single operation accounts for an
additional 42 million in savings and recoveries bringing LEAA's
national program total to 116 million dollars.

Sheriff Pitchess and Senior Special Agent Gunderson also indicated that beneficial side-effects develop from such an effective operation. Many active "fences" restrict or stop operations, causing burglars and thieves to take more risks in disposing of their stolen property--frequently increasing their chances of arrest. Also, the undercover officers develop extensive information on a multitude of illegal activities that is passed on to other law enforcement agencies to act upon.

Dear Mr. Thomas:

On January 13, 1978, your newspaper printed an editorial entitled "The Corruption of J. Edgar Hoover." In that editorial you underscored your membership in a small parade of those given to denigrating the dead and disrespecting the civil rights of Special Agents of the FBI. One particularly offensive line referred to the FBI's grim chronicle of illicit spying, burglaries and other violations of civil liberties."

On April 18, 1978, the <u>Times</u> printed another editorial, this one headlined "Propriety, Not Politics."

There was a familiar and unpleasant echo in the reference to the FBI's "long chronicle of illegal spying, mail openings and other violations of civil liberties." The latter editorial added, "The record is too thoroughly documented to be disputed."

The matters to which your editorials make reference are indeed under dispute. "Indictment" and "conviction" are not interchangeable terms; and no FBI Agent has ever been convicted of illicit spying, illegal burglaries, or violations of anybody's civil liberties. A respected metropolitan news; paper with the circulation of the Times has the responsibility, perhaps more than anyone else, to speak truthfully and to preserve the civil liberties of the accused by assuming innocence until and unless guilt is legally established. FBI Agents are entitled to justice, too.

Your unfortunate and repetitious printing of opinion as fact may be satisfying to some in beleaguring the Federal:
Bureau of Investigation, but it does considerable damage to

1 - Addressee 17- Los Angeles (80-420)

TLG:mmb (2) present efforts to clarify legal issues. If the FBI's investigative reporting system allowed for capricious reflection of unsubstantiated allegations similar to those in your two editorials, the jails of this country would be filled with innocent persons.

These editorials also do a disservice to three men accused of conspiring against the Weather Underground, terrorists and bombers who respect the civil liberties of nobody.

A line from another writer in another newspaper: How the enemies of this country must be celebrating today.

Sincerely yours,

They are also actively involved in illegitimate enterprises. We have a well-organized program directed against this element.

Q: Do you have other areas of concern in Southern California?

A: We have a number of priorities. One (as I mentioned) is organized crime. Two is foreign counterintelligence. Foreign counterintelligence includes espionage directed by foreign nations against our own nation. This area, particularly Southern California, has over 50 percent of the nation's defense contracts so we know that they are here. We are involved in some operations at the present time against this element. Another area of concern is white-collar crime. And the fourth area which is rather unusual in other parts of the nation, is bank robbery.

Q: What do you see as the greatest weakness in the U.S. system of justice?

A: There are several weaknesses. I'm not going to criticize them because no country's ever devised a better judicial system. But I'd say, number one, when the criminals are allowed to commit a crime and be back out in the streets and not be punished in accordance with the crime, it allows them to commit more acts of violence against society. So, I think that we need tougher laws, longer sentences on habitual criminals. I can see where somebody can make a mistake. Sure, give them a chance. But when somebody commits three, four, five crimes I think we ought to put them behind bars and keep them there forever.

Q: Ever since Watergate, the FBI has had to face a great deal of criticism. It's image has been taralished. Do you think the bureau will be able to regain the respect of the American people?

A: I think basically the American public still has the confidence in us that they have always had I don't think we have a problem with our credibility. I think when someone explains to the American public, our authority for using wiretap, they can understand. When we also tell the American public that we use them only against that element that advocates the overthrow of the government, they understand. I give a lot of speeches and talk to a lot of people, and I find that the people that ido not have confidence in the FBI are a wery, very slum minority.

## FBI's Top Man in L.A.—A New Image Gunderson Reflects Openness Policy but Defends Bureau's Past

#### BY ROBERT RAWITCH Times Staff Writer

At his going-away party when he left Dallas, Theodore L. (Ted) Gunderson was described as the "All-American Kid" and given a red, white and blue golf bag as a present.

He arrived in Los Angeles a little mere than two weeks ago anned with two letters from golf pros, one stating that Gunderson has a handicap of two and the other asserting a 32 handicap.

"It just depends who I'm playing which one I show them," he says with a robust laugh, adding that his "honest" handicap is 24.

How often he will be able to get out on the links is a question, however, because the 49-year-old Gunderson has immersed himself in his new assignment as head of the 500-agent FBI office in Los Angeles.

Gunderson presents a sharp cona trast to his predecessors here.

Reflective of the more open image of the FBI fostered by its current director, Clarence M. Kelley, Gunderpon is anxious to talk about the bureau-not only its strengths but also past indiscretions.

Dressed in a gray-checked suit and a white, button-down collar shirt, he pulls frequently on a large cigar and says he'll discuss almost anything. And he does.

On disclosures in recent years of noncourt-ordered wiretaps, surreptitious entries and mail openings used by the FBI in the 1950s and 1960s to monitor political dissidents, Gunderson says he defends the bureau's actions "based on the problems of the times."

Such tactics were used, he said, during a period when extremist groups were "dropping bombs around the country, killing people. Terrorists were responsible for millions of dollars of destruction in property.

Gunderson said the controversial FBI tactics were responsible for "breaking the backs of a number of extremist groups" on the left and the right.

Gunderson maintains the FBI be-

lieved it had the authority for such. actions on the basis of presidential directives and other instructions dating back to 1936 when President Franklin D. Roosevelt charged the FBI with protecting the internal security of the country.

Noting that FBI chief Kelley has publicly stated that agents may in some past instances have been overzealous in such activities, Gunderson said he believes that the FBI should be able to conduct wiretaps in cases potentially involving the internal security of the country.

"We've been charged with protecting the internal security since 1936 and we're now in the 1970s and nobody has told us how to do it," he said."

"... They've told us what not to do, but not what to do."

Gunderson, who lives in Sherman Oaks, says the way to restore the faith in the FBI that some people may have lost "is just to continue to do an outstanding job.

The best thing we can do is just Please Turn to Page 6, Col. 1;

produce results for the Americanpublic," he continued. "We can do it. We have been doing it. But unfortunately our results have been overshadowed with the criticisms."

Gunderson said despite what may seem to be his hardline views on wiretapping and his strong patriotic feelings, "I'm a great civil libertari-

an."
"I believe in equal rights for women and for minorities and for anybody in our system," he said, noting he hopes to increase in particular the number of women special agents in loss Angeles.

There are 70 female agents nationally and five in Los Angeles.

Gunderson indicated he does not favor lowering requirements in any way to bring in more minorities or women into the FBI and, once hired, everyone is treated the same.

"Any female who works for me," he said, "she is going to do exactly what the men do. If they are hired to be agents that is what I expect them to be."

Women have been eligible to be agents only since 1972 when former FBI Director L. Patrick Gray III reversed a longstanding Hoover problition.

Ginvierson added that one woman in particular who worked for him in Dallas "was as good as any man in the office" Gunderson praised the late FBI director J. Edgar Hoover as "one of the great men of our century." But he also credited current director Kelley with streamlining the FBI by climin-

ating some of Hoover's antiquated policies and helping to restore confidence in the bureau in the aftermath of the Watergate scandals that touched on the FBI's independence.

Of President Carter's nominee to succeed Kelly, U.S. Dist. Judge Frank Johnson, Gunderson would only say, "I like what I hear about him."

Gunderson said he sees no need to make any major changes in the operation of the Los Angeles bureau, which he described as having the reputation of being one of the top bureaus in the nation.

He said he envisions an increasing trend toward "targeting" individual "hoodiums" or areas of crime and zereing manpower and other resourcesin to solve the problem.

He expressed the hope that something would be done to equalize the sentences imposed for white-collar crimes compared to other offenses.

"It perturbs me that a person can from and rob a bank of \$1,500 and be sentenced to 10 years in prison and another individual can embezzle say \$20,000 and be placed on probation," Guiderron said. Like nearly all other law-enforcement officials, he was also critical of what he considers a weakness in the criminal justice system which allows "habitual criminals to continually be released back on the streets."

Gunderson has spent virtually his entire adult life in the FBI, joining as a special agent in Mobile, Ala, in 1951,

After his stint in Mobile, he was a field agent in Knoxville, Tenn., New York and Albuquerque. In 1960 he was assigned to Washington, D.C., and held various administrative posts until going to New Haven, Conn., in 1965 as the assistant special agent in charge of the effice, the number two post.

Later assignments took him to Philadelphia. Washington, D.C., again and then the top spots in FBI bureaus in Memphis, and Dallas. He has extensive experience in combatting esplonage and organized crime.

One of Gunderson's only regrets about coming to Los Angeles is that USC doesn't play Nebraska in football this year. He doubts that he will be able to get away during his first few heetic months in his new job to see his alma mater play at least one game.

## FBI official says TV film on King inaccurate in its views of bureau

By HERB PASIK By HERB PASIK ****

Press-Enterprise Staff Writer

PALM SPRINGS - The authenticity of a recently televised movie on the epic struggle of civil rights leader Martin Luther King Jr. and the film's portrayal of the FBI is questioned by a high-ranking FBI official.

"I focused on it intently because I anticipated it would be very critical of us," said Ted Gunderson, a veteran of more than 26 years with the FBI and currently special agent in charge of

the bureau's Los Angeles Division.

Gunderson, 49, who was in Palm Springs to discuss administrative matters with the trio of agents assigned here, is in charge of 500 agents and 300 support personnel whose jurisdiction encompasses a seven-county Southern California area with a population of more than 14 million.

He took issue, during an interview, with the way in which the FBI and J. Edgar Hoover, the late bureau director, were portrayed earlier this month in Abbey Mann's film biography of King, contending it was riddled with inaccuracy and in at least one instance was "totally false."

Although recent news disclosures tend to buttress the script's tough treatment of the FBI, Gunderson, who formerly headed the bureau office in Memphis, Tenn., where the late civil rights leader was slain, claims that Hoover was made to look bad through clever writing, innuendo and acting."

"One statement attributed to Hoover (in the film) that I strongly objected to was when he bassed out brochures on King to top government efficials," Gunderson said. "He was quoted as saying the reason he was passing them out was to prepare these top officials for the black insurrection."

The brochures to which Gunderson alluded were related to an explosive confrontation in the film between an irate Attorney General Robert F. Kennedy and a vindictive Hoover over Hooper's distribution of transcripts that the FBI had made after bugging King's alleged sexual indiscretions." ..... Asia a fit is there

According to Newsweek Magazine, some FBI agents were privately critical recently of the granting of \$500 to \$1,000 awards for outstanding

FBI service.

The magazine said that FBI headquarters officials liberally bestowed the cash awards on themselves, but were stingy in sharing them with their front-line field agents.

"I'll say this," said Gunderson, who spent seven years assign ed to FBI headquarters in Washington and about 19 years in the field, "in my career, when I served in the field, I received 10 incentive awards and they were awarded both to headquarters (personnel) and in the field.

Where an agent does an outstanding piece of work, he is recognized with a cash bonus. For example, I coordinated an aircraft hijacking case for which I received an incentive award, I think I received \$200. I (once) was involved in developing some double agents in the esplonage field. I recall receiving incentive rewards of \$150 to \$200 for my participation in those cases. Carrying shotguns, hijackers held captive 120 passengers and crew.

The Boeing 727, seized south of New York City, had been force-landed at Philadelphia's International Airport for refueling, after which one bad break after another had befallen the FRI.

Ted Gunderson, the Bureau's local assistant chief agent, stood on a runway, dripping water and disgust.

When Gunderson and a crisis team had first approached the plane to negotiate, engines suddenly roared and the ship made a high-speed taxi, run straight at them. As they ducked, the 727 swerved wildly and ended up against the terminal building.

Then, in quick order, the pilot bailed out a cockpit window, cracking his skull on the concrete; a stewardess thrust her body out an opening to scream, 'for God's sake, give them what they want!' and from inside the aircraft a shot was fired.

It was all pandemonium as Gunderson faced his first skyjacking in 21 years with the FBI.

The co-pilot radioed: "They want \$600,000, three parachutes and a second 727 parked nearby for their escape.

"Okay." he agreed. "Keep the crew But give me the rest NOW."

With shotguns jammed against the crew, well-shielded from sharpshooters, the gunmen emerged, boarded plane No. 2 with the \$600,000 and chutes and took off

The freed passengers came out staggering, weeping and cheering - uninjured. وأدا وآء 🐷

At Lake Charles, Tex., the plane blew fires upon landing and the jackers surrendered in exhaustion. FBI chiefs gave Gunderson a special commendation for getting the job done over nine hard hours with such tactical skill.

Would those parachutes have opened - if used?

Gunderson only smiles, reserving comment.

The Philadelphia affair helped win promotions for the Colorado-born agent and led this winter to directorship of the country's second largest FBI office here. The agency covers seven Southern California counties, with branches scattered from Santa Maria to Pasadena to Palm Springs and with 500 personnel under Gunderson.

'The Bureau's been · under heavy criticism in the 1970s and doesn't deserve it.'

At 49, he's been one of the late I Edgar Hoover's and now FBI director Clarence Kelley's "hot" field opera; tors.

Coming here from running the Daflas office, he's an ex-football halfback who has worked bank shootouts, espionage cases, terrorist activity, organized crime's infiltration and gone underground against the Ku Klux Klan. Black Panthers and other extremist groups. .

, He's outspoken to a marked degree, sharply in contrast with tactful FBI commanders who preceded him here.

'Gunderson's opinions come rapidfire from behind a haze of cigar smoke ·

"The Bureau's been under heavy criticism in the 1970s and doesn't de-

"Witnessess testifying before Congressional committees against us have flat-out lied. And lied again. Critics even have brought in former FBI informants and turned them around to give evidence that wasn't true.

"Civil-righters who scream about our wiretaps, surreptitious entries and mail openings ignore the fact that in 1936 the FBI was told to protect U.S. internal security. Can you imagine what a staggering problem that's been?

"It's now 1977 and no one has come forward with solid ideas on how to accomplish this. Critics are quick to tell us what not to do.

f "But there isn't an ounce of solution, to rising crime of a serious nature in

Admissions by director Kelley that the FBI has been overzealous in some instances bring this from Ted Cunderson:

...When'we'had'the'counterintelligence effort called Cointelpro going in the 50s and 60s, it helped break the backs of people dropping bombs everywhere and wrecking milhons of dollars worth of property. Extreme tactics were needed if we were to stop them - both on the left and nght, politically.

"We were rapped for that. But by doing the best work possible today. we'll come through this bad spell.

The husky Gunderson, who lives in Sherman Oaks, insists that denunciations of the Bureau after Watergate were unwarranted.

"We had nothing to do with the incident. We were responsible for identifying Watergate conspirators for prosecution. The FBI was a tower of strength here, yet was called all sorts of names."

Sports "nut" Gunderson also reads

widely. He says:

"Ex-lederal agents who write books 'exposing' their former employer are contemptible.

"The other night I saw a preview of 'The Choirboys', based on a book by

one time local police officer.

"It's awful, strictly opportunistic. another case of defaming the law for profit.

(LAPD Chief Edward Davis earlier described 'The Choirboys', as a book, as "nothing but vomit.")

Citing a solution rate of well over 80 per cent of bank robberies in LA Angeles- the city which leads the nation in such thefts - Gunderson plans no shakeup of the Bureau. Two goals, however, he has in mind.

Counterespionage efforts will be emphasized, considering that Los Angeles now has more than 40 consulates and that a high percentage of government defense contracts are let here.
Individual "targeting" of crime

bosses, rather than "group study", is

another objective.

Meanwhile, Gunderson plans to appeal to citizens to support his office and agents, via press, radio and TV,

in Memphis one day, he pursued three bank robbers who held two wom-

en clerks as hostages.

While shots by the robbers whizzed around him, he helped pull a wounded policeman to safety.

Then - as in the Philadelphia skyjacking - he talked and talked to the cornered thieves on a bullhorn.

Two surrendered themselves and the hostages and the third killed himself.

His own life he regards as on the charmed side.

He's escaped death threats by the Black Panthers in Connecticut, gunfire in Tennessee, and "hit" men of Soviet, pies in New York

"I plan," says Ted Gunderson, freaching for another cigar, "to live th be 103."

### The FBI pleads

12

#### its own case well

A quote from your newspaper: "The Justice Department disclosed Wednesday that two FBI agents had been arrested and had lost their jobs last year for shoplifting."

I'm getting a little sick of this, "let's kick the FBI around," attitude from the press and other sources in Washington. What's so newsworthy about stealing in Washington? They have been picking our pockets for years. If it was was some other department that had two shopliters, would it have made the papers? Can you see TASS (The Russian News Agency) disclosing that two KGB agents had been caught stealing?

Thanks to The Herald Examiner for the printing of Ted Gunderson's (agent in charge of FBI in Los Angeles) letter in defense of the FBL Defense that is of remarks you made about the bureau and one of his agents in your editorial "Not above the law" (April 12). Never thought I would see the time the FBI would have to defend themselves in a "Letters to the editor" column in a newspaper. Keep those letters coming Ted. I think you are going to need them. Besides, I like your style.

Dear b6

This acknowledges, with gratitude, receipt of your letter of April 19, 1978.

Your support is a source of tremendous gratification. I know that I share that sentiment with our Agent personnel everywhere in the country.

So long as we in the FBI have the solid support of people like you who respect the law and recognize the need for enforcing it, there is yet hope.

Thank you, Mr. Simmons.

I have your letter of April 18, 1978, at hand and want you to know that we in the FBI are gratified to have the endorsement of law-abiding citizens such as you.

Your support is important. We certainly need more people to speak, up who recognize the importance of vigorous law enforcement.

Thank you, Mrs. Scott.

Sincerely,

Please accept my gratitude for your delightful letter of April 20, 1978.

Your expression of support is deeply appreciated and serves to spur us in the FBI on in a vigorous enforcement of the law and a refutation of unjust accusations from others.

Your remarks regarding my interview with the "Herald-Examiner" were particularly kind. We do need the support of responsible, law-respecting citizens such as you to spur us on to continued vigorous enforcement of the law.

As to the morale of our Agents, I am of the belief that it is good because the job they do is important. That fact makes our work self-rewarding to a large extent and thick-skinned when it comes to unfair or unjustified criticism.

SUBJECT:

SUPERVISORY ORGANIZATION LOS ANGELES DIVISION

AUG 28 1979

The purpose of this communication is to rethat Special Agent in Charge (SAC) TED L XGUNDERSON 1: designated as Assistant Director in Charge (ADIC) of L Los Angeles Division of the FBI.

The Director's letter transferring me from Dallas to Los Angeles in September, 1977, advised that I was to serve in the capacity of Senior SAC of this office and would not carry the title of Assistant Director in Charge which was the title carried by my predecessor.

The Los Angeles Division, which is the second largest in the Bureau, is unique in its organizational structure having four SACs and no Assistant Special Agents in Charge (ASACs). Each of our three divisions, Administrative, Criminal-Intelligence, and Organized Crime-White Collar Crime, is headed by a SAC who is assisted by a Coordinating Supervisor designated as #1 Man. Although each SAC is fully aware of his individual role, responsibility, and authority, all of us are frequently placed in the awkward position of having to explain in detail to outsiders the relative position of each. There have been occasions where different newspaper articles appearing in the local press within the same week , have identified three different individuals as SAC of the Los Angeles Division. This is a situation which can be very easily rectified by reactivating the title of ADIC or any other title which would specifically identify myself as the ranking official of this division. The Bureau should also be aware that from an operational standpoint, our agreement with General and Pacific Telephone Companies requires that requests for telephone toll records in FCI matters be signed by an individual carrying the title of ADIC. Since September, 1977, it has been necessary for all such requests to be forwarded to FBIHQ. REG-142 167-153-1-5346X3

I request that the Bureau give prompt and favorable consideration to the above recommendation. 2 OCT 10 1573

Judge William H. Webster Director Theodore Funderson Federal Bureau of Investigation Washington, D.C.

Dear Judge Webster:

A colleague of mine in our Southern California area was disturbed by the presentation presented by one of your field FBI agents to the Rotary Club of Redlands.

Despite the obvious efforts of the Attorney General and yourself to change the perception within the Bureau of its obligations to conform to accepted civil rights practices, and to accept liability for unlawful actions, the presentation appeared to the audience to defend a position that the FBI should operate above the law.

The Club is very anxious now to have a presentationumber from the Justice Department or FBI official phormay 1 be better prepared to explain and defend your current thinking. Could you have your staff suggest a few names to us, either from your Washington or Western offices? The date for the presentation would be in July; if you have a Washington official scheduled in the area then it could be ideal.

## FBI-Chief in L.A. Attacks Times' Story on Scholar

Reacts to Article Revealing That Visiting UCLA Teacher Was Followed by 'Amateurish' Agents

> BY DOYLE MCMANUS July 18, 1978 Times Staff Writer

The chief of the FBI's Los Angeles publishing a story on Paul Lin. a visiting scholar at UCLA who discovered he was being followed by FBI

agents.
"If a bona fide law enforcement agency is conducting an investigation. then I think the American public and press have to assume that it's legitimate," Special Agent Ted L. Gunder-

"You have just to take our word for, it—if it's our investigation, it's a legitimate surveillance.

But Gunderson refused to confirm or deny that Lin's shadows were FBI

"If we are running a pending investigation, we are prohibited from making a statement one way or the other," he explained.

Lin, 58, a Canadian born history professor from Montreal's McGill University, spent 15 years in China. He arrived in Los Angeles on sabbatical in December, and UCLA hired him as a consultant to explore the possibility of an exchange program with Peking.

On June 10, he first noticed that men in unmarked cars were occasionally following him—but, he said, "they seemed too blatant, too amateurish to be the FBI."

After several fruitless attempts to

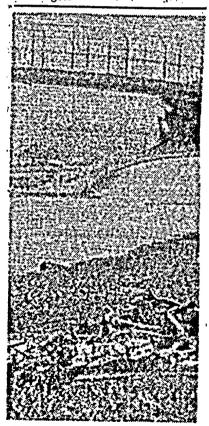

identify the unknown agents, Lin called a Times reporter, who advised him to make a complaint to the Santa Monica police. Tailed by four un-marked cars plus the reporter—who quickly lost the trail—Lin drove to the police department.

A check of the shadows' license plate numbers revealed them to be law enforcement agents. Sources in Los Angeles and Washington said Lin was under investigation by the FBI's counterespionage section, apparently as a possible Chinese spy.

Lin angrily denied being an agent office attacked The Times Monday for for any government, and accused the publishing a story on Paul Lin, a vi- FBI of harassing him. FBI officials, contacted last week by The Times, refused to comment on the case."

Gunderson said he was not afraid, that publicity could hinder the investigation, but that it could damage the

bureau's image. "As far as I'm concerned, the article serves no purpose except to posfirst-class law enforcement agency." he charged.

### 'AMATEURISH' SLEUTHS ARE FBI AGENTS

## Visiting UCLA Scholar Picks Up a Tail

BY DOYLE McMANUS
Times Stati Writer

Paul Lin, a visiting scholar at UCLA, is being followed.

From one to four men have openly tailed Lin, his wife and their daughter around Los Angeles intermittently for a month.

At first Lin, a Canadian-born history professor who spent 15 years in Communist China, did not know who was shadowing him.

"They seemed too blatant, too amateurish to be the FBI," he said.

So, Lin says, one day he stopped his car, marched back and asked the man in the car tailing him to identify himself. The man refused.

Next, in a scene straight from the Keystone Kops, Lin and several friends shadowed the shadowers, chasing them with cameras through a terminal at Los Angeles International Airport in a vain attempt to find out who they were.

Finally, the 58-year-old professor from Montreal's McGill University decided to go to the police. He backed his car out of the driveway of his Santa Monica home—and four unknown men jumped into four unmarked cars to follow him.

The professor and his four shadows, themselves tailed by a Times reporter, nearly caused a traffic jam in the parking lot of the Santa Monica police department.

It was there that Lin learned who his "amateurish" shadows were. Their license plate numbers, fed into the state Department of Motor Vehicles computer, came up blank—meaning law enforcement.

They turned out to be the FBI and they apparently suspected Lin of spying for Peking.

Lin angrily denied being an agent for anybody and accused the FBI of harassing him and his family. He also believes his telephone has been tapood. The FBI is saying nothing.

tapped. The FBI is saying nothing.
"It has really been intimidation,".
Lin's wife, Elicen, said. "This is the first time we ever considered moving to the United States, and the message I get is that we're not wanted."

Paul and Eleen Lin say they don't know why the FBI is tailing them.
Times photo by Larry Bessel

"Everything we've done is out in the open," Lin added.

The FBI's interest in Lin appears natural, for he and his wife lived in China from 1949 to 1964 and still travel to Peking several times a year. Most of his trips are on behalf of U.S. and Canadian companies seeking trade with the Chinese.

One of his recent clients was UCLA, which hired him as a consultant to explore the possibility of exchange programs with Chinese universities.

"There isn't anything secret about what he was doing." UCLA Vice Chancellor Elwin V. Svensen told The Times. "I find it (the FBI investigation) a little bizarre."

The Lins first went to China in 1949 after Prof. Lin finished graduate work at Harvard "to see this great history-making event, to see the transformation of the country," Lin said. He freely acknowledges being an admirer of Mao Tse-tung, but says he has never been a Communist.

"We didn't intend to stay that long, but we found it very exciting. The whole population was almost cuphoric about the possibilities for their country," he said.

But after 15 years, they decided to return to Canada—both to "build bridges" between China and America, and to give their children, who attended Chinese schools in Peking, a grounding in Western culture.

Lin initially was enthusiastic about helping UCLA's bid for an exchange program with China, but now, he says, "I feel like dropping the whole damn thing."

"It sure puts a damper on my enthusiasm for building bridges," he said.

But Mrs. Lin saw at least some sil-

ver lining.
"Thank God it turned out to be the FBI," she said. "We didn't know who it was. They could have been hired by the Kuomintang (the anti-Communist party which rules Taiwan) or anybody. At least the FBI is under some kind of control.

"Maybe they'll follow us when we drive up to Vancouver this week," she said with a smile. "That would make it a safe trip."

#### July 18,1978

Special Agent Ted L. Gunderson Chief of the Federal Bureau of Investigation Los Angeles, Ca

Dear Mr Gunderson:

Our family was certainly pleased that you spoke out against the Times' article about some Chinese professor saying that the FBI had followed him. We were insulted by the way the paper talked about the F.B.I. and I wrote Mr Wm. F. Thomas, Vice Pres. & Editor, to that effect.

The FBI is respected and appreciated deeply by most Americans and any affront to them is a personal affront to us. We Americans are greatly protected by the FBI so we resent any attempt to discredit them. As you know, we are quick to write our defense of the FBI to Griffin Bell or anyone else.

We are happy that the FBI is beginning to speak out in its own defense and we greatly appreciate what you said in today's paper.

I told Mr Thomas that the Times seemed to be following the mold of the media that Aleksandr Solzhenitsyn described in his Harvard commencement address.

Please accept our grateful thanks to the wonderful F.B.I. for their protection of us and our country.

Dear Ted:

The article in the Los Angeles Times on July 17, 1978 concerning the FBI surveillance of the so-called visiting scholar at UCLA, was another example of the Time's "embarrass the establishment, particularly if it's the FBI" policy. Anyone with any sense could see the superficiality and callous disregard for the serious problems of intelligence gathering which face the FBI.

Thus it was gratifying to me to read the Los Angeles Times issue of July 18, 1978 which printed your reaction to the previous article. I particularly realize the delicacy of responding to an article of this nature covering such subject matter, and therefore I am pleased you spoke out with force. We need more of this and less quavering in the face of such vestiges of the "Watergate-type investigative reporting" still being indulged in by some of our leading newspapers. Keep up the good work.

Sincerely.

Dear

The Board of Directors of the New York Alumni Association of Sigma Alpha Epsilon is pleased to advise you that you have been selected as the recipient of the Highest Effort Award of Sigma Alpha Epsilon in the field of Law Enforcement. This award is given annually to those alumni of Sigma Alpha Epsilon who have, over the years:

- . Performed services that better either the human condition or further man's knowledge.
  - . Demonstrated by their actions the ideals of our fraternity and the creed of the true gentleman.
  - . Provided services which will be a model for those who follow.

Your name was brought to our attention by of the late Rex Smith and we were in total agreement with her belief that your achievements are certainly worthy of this recognition.

The New York Alumni Association, in recognizing twelve outstanding alumni from various fields, is reaching out to all fellow alumni for their efforts to society. The presentation of The Highest Effort Awards will be made at the Founders Day Dinner on March 9, 1979.

We trust that you will be able to be with us at that time. You should advise us of your intent to personally accept this award or the name of your surrogate. In addition, we would like to ask you for a personal photograph.... This photo and an accompanying story about your actions will be featured in a future issue of THE RECORD.

We look forward to having you with us on March 9th. Until then I remain

SUPERVISORY ORGANIZATION LOS ANGELES DIVISION

TO: DIRECTOR, FBI

PERSONAL ATTN

Judge WILLIAM H. WEBSTER Gunderson, Theodore

Reference is made to communication dated 11/: from ROBERT H. MATHESON, JR., Administrative SAC, Los i to the Bureau, advising of SAC MATHESON's retirement e; 12/17/78.

After considerable thought and analysis, I be_____ SAC MATHESON should be replaced by a seasoned ASAC; that office should continue to operate with an experienced number one man, both he and the ASAC responsible directly to me.

In all good conscience, however, I am compelled to advise against replacing the other SAC's in this Division with ASAC's through attrition. These are operational Divisions (Criminal-Intelligence and Organized Crime - White Collar Crime), and their investigations are much too intricate and complicated to permit ASAC supervision. The sensitive and often extensive supervision in such investigative areas as political corruption, organized crime, and foreign counterintelligence make SAC authority and experience mandatory.

In the event the Bureau is giving consideration to replacing these SAC's with ASAC's in the future, I would like to point out the inconsistency of heading 150-men Divisions here with ASAC's when only a handful of Field Offices have as many Agents in their complete structure. Even New Rochelle, a New York satellite office, has an SAC and ASAC with a com-67 plement of fewer than 70 Agents.

While I respect the opinion of the Burgau-regarding... my request that my position be set apart from thoselof the other SAC's with the designation ADIC, I firmly believe that failure to do so in some way is a mistake which is not in the Bureau's best interests. All four SAC's here are receiving notable publicity, and the previously mentioned confusion on the part of some as to "who's in charge" promises to continue with both the media and the general public. Enclosed are two recent copies of IMPACT which illustrate the problem. Three SAC's are quoted, and a fourth is mentioned a plurality of times

LA 66-4542

Since the Bureau decided not to designate the senior official position in Los Angeles as ADIC, I suggest consideration be given to future redesignation of the senior SAC position here as "Chief SAC." You may also wish to consider this designation throughout the Bureau. This term uses law enforcement parlance which is clear to fellow police agencies as well as to the public and media personnel. In multi-SAC offices such as this one, the SAC title could be retained for divisional heads and the traditional ASAC could be designated "Deputy SAC."

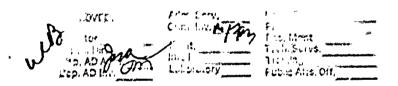

It is requested that these suggestions be given prompt consideration.

### ADDENDUM: CRIMINAL INVESTIGATIVE DIVISION FMM:kvw 12/27/78

CID is of the opinion that to add additional titles to the many currently utilized to identify Bureau officials would only add to the confusion cited by SAC, Los Angeles. It is certainly true that having an SAC supervise an SAC is not the best possible situation and any office having multiple SACs should have an Assistant Director in Charge.

If former SAC Matheson is replaced by an ASAC to direct the Administrative Division in Los Angeles, undoubtedly a situation would develop whereas in time the ASAC of the Administrative Division would be in charge of the Los Angeles Office in the SAC's absence and therefore directing the activities of other SACs. If the SAC title is to remain in effect in Los Angeles and former SAC Matheson is to be replaced by an ASAC, the other two divisions in Los Angeles should also be under the direction of an ASAC.

It is the opinion of CID that the Los Angeles Division can be best managed by an SAC and three ASACs.

WMB:sift

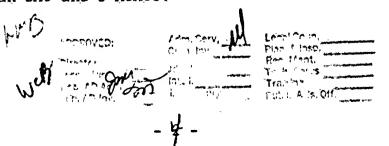

SAC, Los Angeles, in an effort to clarify as to "who's in charge" sets forth his opinions concerning whether ASAC's or SAC's should, in the future, head the approximately 150 Agent Divisions at Los Angeles, i.e., the Criminal-Intelligence Division and the Organized Crime-White Collar Crime Division. SAC, Los Angeles, states it would not be consistent to head a 150 Agent operation with an ASAC when only a handful of field offices have as many Agents in their complete structure. SAC, Los Angeles' observations are well taken; however, the question is not so much one of numbers, as to making sure from a management position that suitable, competent leadership is provided.

Administrative Services Division concurs with Criminal Investigative Division that the Los Angeles Division can be appropriately managed by an SAC and 3 ASACs. It is noted SAC, Los Angeles, refers to New York and the organizational structure there, where in the New Rochelle Metropolitan Resident Agency there is an SAC and ASAC.

For comparative analyses, it is pointed out that the New York Division has a target staffing level of 840 SAs and there are 53 supervisors within that division, not counting SSRAs and the ADIC. The Los Angeles Division has a target staffing level of 443 SAs with 28 supervisors, including SAC Gunderson, but not including SSRAs. The uniqueness of New York's organizational structure should not be a prime consideration in attempting to determine the appropriate supervisory structure for Los Angeles.

This matter was considered at FBIHQ at the Executives Conference and referred to the Career Board wherein it was recommended that the SAC, Los Angeles, in the future should consider operating with ASACs rather than SACs to head his 3 divisions. This supervisory structure would be similiar to the WFO current structure where the SAC is assisted by 3 ASACs. WFO has a target staffing level of 394 SAs with 21 supervisors, including the SAC.

RECOMMENDATION: That the Los Angeles Division should be managed by an SAC and 3 ASACs.

Los Angeles letter to Director, 11/30/78
Re: SUPERVISORY ORGANIZATION
LOS ANGELES DIVISION

### ADDENDUM, INTELLIGENCE DIVISION, 1/9/79, ABF/bad

The INTD concurs with the recommendation previously made by the Career Board and endorsed herein by the Criminal Investigative and Administrative Services Divisions that the eventual executive structure of the Los Angeles Office should be an SAC and three ASACs. It was the Career Board's suggestion that this executive structure be arrived at by attrition. The recent reassignment of WFO ASAC Joseph V. Corless to Los Angeles as ASAC (GS-16) for Administration is the first step in implementing this change. It should be continued by eventually replacing the two Operational SACs with ASACs. The Administrative ASAC of Los Angeles is the logical executive to be in charge of that office in the absence of the SAC and it would be illogical, and in fact, impossible for this to occur if the two Operational Divisions of that office are headed by SACs.

The INTD is of the opinion that the Foreign Counterintelligence (FCI) Program of the Los Angeles Office, which is in its Operational Criminal/Intelligence Division, can be effectively administered by an ASAC. In fact, it is submitted that given the "public nature" of the SAC position that an ASAC would be able to devote more time to the activity management of his investigative program leaving publicity matters to the single SAC.

By structuring Los Angeles' executives as an SAC and three ASACs, it eliminates the problem of "who is in charge" and the confusion that would continue by designating a "Chief SAC" or similar title.

Mr. Theodore L. Gunderson Senior Special Agent in Charge Federal Bureau of Investigation Los Angeles, California

Dear Ted:

Your memorandum dated November 30, 1978, has been circulated for comment among the members of the Executives Conference. The three divisions most directly concerned, Criminal Investigative, Intelligence, and Administrative Services uniformly believe that the Los Angeles Division can be effectively managed by a Senior SAC and three ASACs. I am aware that you and others in the Los Angeles Office do not believe that the Washington Field Office is an appropriate analog because Los Angeles receives many of the inquiries that would more likely come to Headquarters if originated in Washington. I intend to follow the recommendation of

the problems which you have anticipated in your memorandum. I appreciate your contribution to the subject and I value

my Conference in this matter but will be watchful for

your experience and judgment.

With best wishes,

Dear Judge:

AXIOS, an organization of Greek-American businessmen and professionals, was formed last year in Los Angeles.

Representing a cross-section of some 250,000 Americans of Greek descent in the Southern California area, AXIOS has as its aims to become more involved in the California governmental process, as well as active participation in charitable and community events.

In this connection, we staged an "F.B.I. Nite" on January 9th, and had as your representatives, Ted L. Y. Gunderson, Los Angeles Special Agent in Charge, William D. Neumann, Organized Crime-White Collar Crime Division, and Herbert D. Clough, Jr., Criminal-Intelligence Division, all of whom were splendid.

The Board of Directors has directed me to formally commend them to you and to offer the Bureau our wholehearted support and assistance whereever possible.

will you please extend to the gentlemen above our highest commendation and appreciation for the job they and your personnel are doing for all of us. Thank you, also, for the outstanding job-you are doing for our REC-13A country.

The Business Meeting called for January 9, 1979 at the Los Angeles Hilton has been changed to "F.B.I. Nite" with Assistant Director in Charge of the Los Angeles Division, Ted Gunderson, as our guest speaker. (The Business Meeting will be re-scheduled in the near future.)

Mr. Gunderson will be accompanied by other top officials of the F.B.I., past and present, and will give us an inside view of "What's going on in America."

Don't miss this opportunity to meet and greet these dedicated public servants.

Much maligned by some in recent years, the F.B.I. stands today, as always, as a bulwark against crime and subversion in America.

Mr. Gunderson is a "stand-up and be counted" and "call it like it is" law enforcement official.

Please don't miss this one. Each of you is urged to bring a guest.

Remember, the meeting starts with a social hour at 6:30 in the Garden Room East and dinner will be served at 7:30 p.m. Reservations are a must - please call the Executive Director, Hal Marlowe, at 213/877-0011, or return the reservation slip that was enclosed with the previous mailing.

CLASS. & EX REASON-FOTH I Judge William H. Webster DATE OF RAVIEW

Director

Federal Bureau of Investigation Washington, D. C.

AUG 29

Dear Judge Webster:

Homer called last Thursday regarding my letter to the Los Angeles Herald Examiner published on January 17.

I want you to know I have never said we cannot live within the Attorney General guidelines, nor have I ever intentionally made a public statement contradictory to one of your own. You know I believe in a chain of command and in teamwork. I do not endorse public airing of what might be construed as family differences. I have one hundred percent confidence in your leadership and am totally loyal to you and the FBI.

The editorial to which my letter was a response criticized local law enforcement for inadequate handling of a Beverly Hills demonstration which became violent. It was perpetrated by the Iranian Students Association. Criticism was also directed at the FBI for failure to provide local law enforcement with intelligence information to help the police anticipate and cope with the situation. My letter was intended to underscore the fact that such criticism is unjustified since neither we nor local law enforcement possessed prior intelligence information on the Iranian students - ENCLOSUREC-134

My letter was a simple and basicadefense of awenforcement; feedback resulting from it has been numerically impressive and, with the exception of Homer's criticism, completely positive. As examples. Ted Cooke, Culver City of the Chief of Police, and California Highway Patrol, wrote to say the letter was "right on target" and that we need more law enforcement leaders to stand up and speak out when unfair and unjustified criticism is directed toward our profession.

We did know that Iranian students planned an anti-But because of lack of informant Shah demonstration. coverage, we possessed no prior indication of possible The intelligence guidelines appear to make the violence.

assumption that the FBI has existing sources within the Iranian Students Association. This is not the case, although perhaps it should be. In view of this Division's lack of informants within the organization (who would likely have enabled us to foretell the violent acts), our investigations were restricted to preliminary inquiries, that is, mere record checks.

Many of these so-called Iranian students used fictitious names and addresses upon entering this country. Neither we nor the Immigration and Naturalization Service know their true identities. We may never know. Yet, these people flew the hammer and sickle at their headquarters during the Los Angeles convention and committed arson and physical violence at Beverly Hills.

It is also worth remembering that members of the Baader Meinhof, apprehended on international borders, attempted to enter this country with stolen Iranian passports.

herself utilized one such passport; she was accompanied at the time of her apprehension by an Iranian-born naturalized U. S. citizen. Indeed, we possess current teletypes indicating the possibility that West German terrorists are even now entering this country. It appears their destination is Los Angeles.

Your attention is called to the enclosed Los Angeles letter to the Director 1/30/79 which regards the Prairie Fire Organizing Committee, an extremely radical and dangerous group whose members were observed participating in the Iranian students' demonstration in Beverly Hills. The words "Iranian students" keep reappearing as if by magic. And they are but one example in many.

I'm sure you remember the thrice-given Congressional testimony of G. Stuart Knight, Director of the Secret Service (1/13/77, 7/27/77, and 9/21/77). He stated there are U. S. cities where the President is advised not to visit because erosion of law enforcement intelligence has reached the point where actions of radical demonstrators and potential terrorists cannot be predicted.

This was the primary message of my letter to the Herald Examiner. It is unjust to criticize law enforcement for inadequate intelligence when regulations are so restrictive at all levels that adequate intelligence becomes impossible.

CONFIDENTIAL

Judge, I am writing honestly, not disrespectfully. I must say in all candor our intelligence situation is in abysmal condition. The European wave of terrorism is obviously now upon our shores and, because we must be reactive to the bomb explosion rather than proactively preventing it, we are ill-equipped to contend with forthcoming violence. As pointed out in the enclosure, individual rights are of utmost importance; but some of our citizens are going to have their individual rights blasted off the face of the earth if our intelligence community does not gird its loins "with the laudable purpose of prevention" rather than collecting evidence afterwards.

I urgently request that you lend an unbiased ear to a field commander who daily witnesses Agent frustration and overcautiousness. These men and women fear they might overstep the guidelines or find themselves powerless to protect their sources from disclosure. Hesitancy is not a historic earmark of a Special Agent of the FBI.

I am compelled to let you know my feelings regarding these important matters. I would be less than honest if I did not.

Warmest regards,

Ted L. Gunderson

The following is the opinion of Los Angeles regarding captioned organization and its operation in the Los Angeles area.

Since the arrests of CLAYTON VAN LYDEGRAF,

on 11/19/77, in case captioned "WEATHAPS" (Bureau file 174-7926, San Francisco file 174-1703, Los Angeles file 174-3233), a large contingent of PFOC members have established at least a temporary residence in the Los Angeles area. From 40 to 50 members of the PFOC have attended the trial proceedings of the WEATHAPS matter; the majority of the members are from the San Francisco area. A few former Weatherman fugitives have also been observed at the trial proceedings;

is one who attends the proceedings on a

regular basis.

The PFOC has become active in and has been offering support to a number of other radically-oriented organizations in the area. Its members have been observed participating in the recent Iranian demonstrations in SEARCHED Beverly Hills, 'California (Bureau file 105-99542, NOFXED LOS Angeles file 199-3, case captioned "IRANIAN STUDENTS ASSOCIATION IN THE UNITED STATES").

The PFOC has also actively supported: (1) "Skyhorse" Mohawk Defense Committee", (2) "South African Support Committee," (3) "Southern African Coalition," and (4) "The Carlos Montes Defense Committee." The Skyhorse Committee dealt with the murder of a taxicab driver; the South African Support committee and the Southern African Coalition both speak out against what they claim are CIA backed mercinaries and the White Rulers in Africa; and is a brown beret who is on trial for a 1970 arson of a local hotel.

It is apparent that the PFOC has not lessened their activities since the WEATHAPS arrest, and if anything the PFOC has increased activities to gain support from other similar-goal-oriented organizations.

All of the information regarding the PFOC's recent activities have come from local intelligence agencies, and there is much more valuable information available which we cannot accept or report on because of the very limited authority upon which we presently operate, based on the Attorney General's (AG) letter dated July 15, 1977.

According to this authorization for a full field investigation of the PFOC, the only way individual members may be investigated is if it can be shown that they provide material support to members of the Weather Underground (WU) or the Revolutionary Committee (RC). This is like putting the cart before the horse. It is the WU and the RC that have taken credit for numerous bombings over the years. The main thrust of the investigation is to locate and arrest these terrorists. If the FBI knew where the WU or the RC were they could be arrested. If we do not know where the "enemy" is how can we possibly investigate those who aid them in their activities -- we cannot.

The PFOC is not organized like a military organization; the members do not have ranks from private to general. Some of the old-time members may have more influence than others, but generally whatever decisions are reached are done so by a collective decision. There are no public announcements of PFOC meetings and activities; it is a closed group with word passed from individual to individual. It is impossible to report on PFOC activities unless you have good informant coverage of the organization, and an informant cannot penetrate the organization until he first gains the trust of one of its members; but based on the present AG guidelines an individual cannot be investigated, so we have gone full circle.

CONFIDENTIAL

LA 100-85463

A full field investigation of the PFOC is warranted, and at least a limited investigation of all its members as well as a targeted investigation against its more prominent members is needed.

The PFOC had a prominent role in the WEATHAPS case. The group knew and approved of the activities of the five defendants. This was knowledge acquired prior to the arrest and not after. Under the present guidelines we have been forced into a reactive position. If a bomb goes off, or an assassination or kidnapping takes place, and we somehow discover the PFOC is involved we will be in square one. Who do we interview? Where do they live?

A similar situation exists in a recent incident in Los Angeles with the Iranian students. Hundreds of Iranians demonstrated against a residence in Beverly Hills, California, wherein the mother of the Shah of Iran was residing. Violence errupted causing many injuries and thousands of dollars in property damage. The FBI, under the guidelines under effect at that time, could not possibly foresee the situation which resulted. Private citizens and public officials, including the President of the United States, were in an uproar wanting explanations as to why this type of thing could occur without prior knowledge by the intelligence community.

Individual rights are of the utmost importance in a free society, but what of the rights of the victims. Los Angeles is at present in a frustrating position and respectively requests any suggestions. There is a danger here, but our hands are tied.

### TO THE DIRECTOR:

Pursuant to your instructions, I contacted Ted Gunderson regarding his "Letter to the Editor" which appeared in the "Los Angeles Examiner" of January 13th (copy attached). During the course of our conversation, it was apparent that Ted was not that familiar with your views on the Department's guidelines. I have sent a personal letter to Ted including public statements, press conference comments, and speeches wherein you have set forth your views on domestic security guidelines. I also furnished him your public statements on the Charter so that he doesn't get off the reservation on this very important subject.

Dear Ted:

I received your letter of February 7 and I appreciate you providing me with your views regarding domestic security quidelines.

I know from time to time concerned views are expressed regarding these guidelines; however, I believe that at this time we are able to work within them and, therefore, no modifications are necessary. I do intend to follow and monitor our domestic security investigations, and you can rest assured if changes become necessary I will recommend such modifications to the Attorney General.

FEDERAL BUREAU OF INVESTIGATION Los Angeles, California March 6, 1979

Judge William H. Webster Director Federal Bureau of Investigation Washington, D. C.

Dear Judge Webster:

This will confirm our telephone conversation of last Saturday and my intent to retire from the Federal Bureau of Investigation as of the close of business Friday, April 20, 1979.

I admit to some personal sadness as I retire. When I entered on duty with the FBI more than 27 years ago, I did so with a special pride in becoming a member of the finest investigative and law enforcement agency ever. My original analysis of the Bureau has been underscored and strengthened in a thousand ways over the years; thus, my sadness in leaving the ranks of such a magnificent organization, made up of stouthearted men and women who daily accept awesome responsibility and bravely persevere in its discharge.

In spite of my sadness, I yet have that special pride with which I took my initial oath. I am proud of my career, proud to have had a part in the admirable accomplishments of the Bureau during the historic past three decades.

I shall always have that pride and shall forever cherish my membership in the FBI family. As the poet Browning says, it is "all that I was born to be and do." I mean it most sincerely when I say if I can contribute to the weal of the Bureau in any way in a private capacity, please feel free to call upon me.

Honored I am to have been in spossesion-officedership in the FBI. And I consider my service in Los OAABRIES, 1979 most ways the flagship of the Bureau, a capstone to my career.

Thank you for your own leadership, Judge. Godspeed in the challenging days ahead.

Mr. Theodore L. Gunderson Special Agent in Charge Federal Bureau of Investigation Los Angeles, California

Dear Ted:

Since receiving your letter of March 6, 1979, and intervening telephone conversations, I now understand that you now intend to retire as of March 30th in order to accept a special consulting assignment from the Department of Justice.

I wish I could convey to you how sincerely I appreciate the years of dedicated service which you have given to the Bureau and especially this last year when so much depended upon the support given me by the field commanders. You have done a great deal in a personal way to enhance the justified reputation of the Bureau and I know that you will continue to give it your unswerving support.

I count on our friendship continuing in the years ahead. Warm best wishes,

Sincerely,

#### TEINSTRUCTIONS FOR EMPLOYING OFFICES

ADMINISTRA Complete this form upon separation (and conversion to or from an appointment under the Civil Service Retirement System) to provide a cumulative record of creditable service for Civil Service retirement. 11 25 AM

Must agree with RF-30. items'1-3

- Number statements in consecutive order. Item 4
- Item 5 Use FPM Supp. 831-1, Retirement, S-3, Creditable Service, to determine the length and creditability of periods of service. All entries are to reflect verified service documented in the employee's Official Personnel Folder (OPF). If the previous civilian service or military service sections do not apply to the employee, enter "none"; do not leave blank.
- Complete only for separations and conversions from positions subject to Civil Service retirement deductions, Item 6 checking the appropriate box as follows: (Only one box is to be checked). None—Check if the employee transfers to another position subject to the Civil Service Retirement System.

Refund Only-Check if the employee fails to meet either of the two general requirements for retirement upon

separation: (A) 5 years total civilian service and (B) at least one year of service subject to the Civil Service Retirement System in the two year period preceding the separation ("one of two" rule)

Deferred Annuity or Refund - Check if the employee, at separation, meets both of the general requirements for retirement but does not meet any of the sets of conditions for immediate annuity opposite.

Immediate Annuity - Check if, at separation, the employee meets both of the general requirements and any of the sets of conditions for immediate annuity shown opposite,

Minimum Age	Minimum Service (Years)	Special Requirements
62	5	None
60	20	None
55	30	None
Any age	25	Separation must be involuntary with- out cause or during a major reduction
50	20	in force as determined by the Civil Service Commission.
Any age	.\$	Total disability; "one of two" rule, above, does not apply.

- Explain any difference between the amount of creditable service entered for a period of service and the calendar Item 7 time represented by the "From" and "To" dates entered for the same period, i.e. Excess LWOP, Intermittent Service, or "Time Lost" during military service. Also use this section to clarify any other entries on the form. For example, if the employee had two periods of military service enter "See Remarks" and the amount of total military service in Section 5C and enter the dates of military service under Remarks.
- The employee is to review and sign the forms during the exit interview or at some other convenient time prior Item 8 to actual separation. If the employee's signature is not obtained before actual separation, the employee and OPF copies of the form are to be forwarded to the employee for signature. The control copy is to be filed on the right-hand side of the employee's OPF. The material sent to the employee is to include a letter of transmittal which instructs the employee to sign and return the OPF copy and a franked envelope with the agency's return address. If the employee fails to return the OPF copy, the control copy will be retained in the personnel folder. If the OPF copy is returned or if the employee's signature is obtained before separation, the control copy may be discarded.
- Items 9-11 The completed forms are to be signed by an authorized agency personnel official, including title, agency name, bureau, division, and mailing address.
- A current copy of this form is to be filed on the right-hand side of the employee's Official Personnel Folder NOTE: whenever the folder is transferred between agencies or from an agency to the Federal Records Center, regardless of nature of agency, type of appointment, or reason for separation.

Dear Judge Webster:

Thank you very much for your kind letter of March 20. Your understanding is correct in that I do intend to push my retirement forward to March 30 in order to accept the consulting assignment from the Department of Justice.

I deeply appreciate your complimentary personal remarks regarding my service to the Bureau. Please rest assured that I plan to support and promote the FBI for the rest of my life. When my assignment with the Department of Justice is completed, I have plans for lectures, a book or two, and the consulting business. In all of these activities the Bureau will remain foremost in my mind as the most outstanding law/enforcement agency in the world.

Once again, please accept my sincere invifation to call upon me if I can contribute to the welfare of the Bureau in any way.

Warm wishes always.

Sincerely,

Mr. Theodore L. Gunderson Special Agent in Charge Federal Bureau of Investigation Los Angeles, California

Dear Ted:

I am sorry I cannot be with your friends and colleagues who have gathered tonight to honor you on your retirement.

Your 28-year career in the FBI has been a distinguished one. During this past year that we have worked together, your unswerving dedication to the professional standards of the Bureau and your personal support have meant a great deal to me. I know all of those in attendance recognize that the experience and knowledge which you brought to your position as Special Agent in Charge of the Los Angeles Division will be greatly missed with your retirement.

I welcome this opportunity to extend warm regards from all of your associates in the Bureau and my own best wishes for success and happiness in the years ahead.

Sincerely yours,

#### TO WHOM IT MAY CONCERN:

This is to certify that Theodore L. Gunderson was appointed Special Agent of this Bureau on December 10, 1951. He served in that capacity through January 4, 1964. On January 5, 1964, he was appointed Supervisory Special Agent and served in that capacity through November 6, 1965. On November 7, 1965, he was appointed Assistant Special Agent In Charge and served in that capacity through November 12, 1973. On November 13, 1973, he was appointed Special Agent In Charge and served continuously in that capacity through March 30, 1979. During his service with this Bureau, Mr. Gunderson participated in and supervised the investigation of violations of laws of the United States and performed duties of a hazardous nature. His services were entirely satisfactory and he met the requirements necessary to retire under the provisions of Section 8336 (c) of Title 5, United States Code, and Public Law 93-350.

Very truly yours,

Mr. Theodore L. Gunderson Apartment 103 4558 Willis Avenue Sherman Oaks, California 91403

Dear Mr. Gunderson:

Public Law 95-521, "Ethics in Government Act of 1978," was passed on October 26, 1978. Title II of this Act, which requires individuals in the executive branch of government to file financial disclosure forms, took effect on January 1, 1979. Among those individuals required to file are employees who occupied, at the time of termination of employment, a position in grade GS 16 or above. Since you meet this criteria, I am enclosing two copies of the form for your use.

This report must be filed on or before the 30th day after termination of employment, provided you have not assumed another position in grade GS 16 or above within the 30-day period. Inasmuch as the forms required for filing were not received in this Bureau until April 19, 1979, the Office of Government Ethics has advised that they should be completed and filed as soon as possible.

Your report should cover calendar year 1978, as well as that portion of 1979, up to the date you retired. When sompleted, the form should be forwarded to the Personnel Officer, P.B.I., 9th Street and Pennsylvania Avenue N. W. Walshington, D. C. 20535. (EU-141) 67-For your information, each form villable reviewed to insure compliance with applicable laws and regulations 2001978n-

ing conflict of interest. Fifteen days after receipt, each report will be made available to the public, together with a Dep. AD Adm. the use of your report by anyone for any unlarged and any

for dissemination to the general public, credit rating purpose, or for the purpose of solicitation of money. The report will be made available for a period of six years after receipt, after which it will be destroyed, unless needed in an ongoing investigation.

The Act also provides for civil action which may be instituted by the Attorney General against any individual who knowingly and willfully falsifies or who knowingly or willfully fails to file or report any information that is required pursuant to the Act. The court may then assess against the individual a civil penalty in any amount, not to exceed \$5,000.

If you have any questions regarding this form or the Act, please do not hesitate to contact me.

Sincerely yours,

Richard E. Long

chief of lo Post Office Box. Los Angeles, California Dear Chief Sates: Many thanks for the candid remarks in your letter of April 6th concerning Ted Gunderson and the relationship between our respective offices with regard to bank robbery O POLICE matters. DE VARTMENT CALIFORTUR I appreciate your concern over the FBI's future role in bank robbery investigations in the Los Angeles area. As you know, the Bureau's mission is changing: Our funds are limited and our responsibilities have increased. are currently steering our resources toward three priority matters--white-collar crimes, organized crime and foreign counterintelligence. It is estimated that banking institutions have lost three times more money from embezzlement--a white-collar crime--than from robberies. Since Congress has restored over one-half of the proposed \$5.13 million reduction to our Fiscal Year 1979 budget to handle bank robbery investigations, we will be able to continue investigating these crimes in much the same manner as before; however, we must recognize the fact that we are wing to APR 3 0 1979 have less manpower available if we are to effectively disc charge our priority commitments. I will have a copy of your letter forwarded to =5 Mr. Herbert D. Clough, Jr., our new Special Agentain Charges in Los Angeles, and I know he will be grateful for your pleage of continued support and cooperation. Our success depends a great deal on our ability to work with you in local law enforcement and we look forward to a future of even greater accomplishments. LOCAL & STATE

Mr. William H. Webster Director, Federal Bureau of Investigation United States Department of Justice Washington, D.C. 20535

Dear Judge Webster:

The Los Angeles Police Department has enjoyed a unique and successful relationship with the Office of the Federal Bureau of Investigation in Los Angeles under the able leadership of Special Agent-In-Charge Ted Gunderson. Through his efforts, the Bank Robbery Squad of the Los Angeles Division, FBI, has worked harmoniously with the Bank Detail, Robbery-Homicide Division, of the Los Angeles Police Department.

The concurrent investigative jurisdiction of the FBI and the availability of their vast resources have enabled the Los Angeles Police Department and the FBI to record a clearance rate by arrest of 80 percent over the past five years. This high clearance rate is unparalleled by any other metropolitan law enforcement agency working in concert with the FBI.

The involvement of the FBI in local investigations and their ability to connect criminals to multiple bank robberies clearly expands our investigative capabilities. In 1978 the City of Los Angeles fell victim to 307 bank robberies. Ted Gunderson recognized our continued need for the services of the FBI with libank robbery investigations.

|Therefore, I sincerely request that the newly selected Special Agent-In-Charge of the Los Angeles Office be allowed to continue

the present policy of maintaining a Bank Robbery Squad.

May I pledge our continued Support and full cooperation with the pext Special Agent-In-Charge, as well as all members of the Federal Bureau of Investigation assigned to the City of Los Angele

Dear Sir:

We have received notice from the above-named alleging that the employee has sustained hearing loss due to exposure to hazardous noise at your establishment. To make a determination in the case, we need the information below as noted by check mark.

- X 1. A detailed and chronological description of the type of work performed by the employee and his/her exposure to hazardous noise at your establishment:
  - a. locations or job sites where exposed:
  - b. Decibel level of noise with copy of noise survey report covering each location where the employee worked; and
  - c. Period of exposure, hours per day, days per week.
- x 2. Copy of employee's job sheet, and employment record.
- x 3. Copies of all prior medical examinations pertaining to hearing or ear problems, to include audiograms, if such tests were made.
- X 4. Does your agency have an established policy or procedure for notifying employees when an audiogram discloses a hearing loss? If so, and such policy or procedure is in writing, send us a copy. If not in writing, state how the employee is notified and what the notice consists of.
- X 5. If ear defenders were ever issued this employee, advise:
  - a. When and by whom they were issued; and
  - b. The information given the employee by this person as to why they were issued.
- X 6. Was this employee ever notified of the hearing loss by anyone at your agency and that it was possibly employment related? If so, submit substantiating documentation showing what the employee was told, by whom, and the date such information was provided.
- X 7. If employee has been removed from hazardous noise area, give date of last exposure and the pay rate in effect on that date.

X 8. An official of the agency most complete the reverse of enclosed copies of forms

Mr. Theodore L. Gunderson 4558 Willis Avenue Sherman Oaks, CA 91403

Dear Sir:

Dear

The procedures used in the development of hearing loss claims under the Federal Employees' Compensation Act have been revised.

In the past, a claimant was required to arrange for submission of a complete and current medical report describing the nature and extent of hearing impairment. Some reports submitted under this procedure were incomplete or inconsistent, were expensive to obtain and often were submitted only after a long delay. Therefore, the OWCP has adopted new procedures for obtaining such medical evidence.

All unadjudicated hearing loss cases will now first be developed for determination concerning exposure to hazardous noise and timeliness of the claim. If exposure and timeliness are established, the claimant will then be referred to a Board Certified otolaryngologist for a complete otological and audiological evaluation at the Office's expense. Claimants will no longer be required to arrange for submission of such reports.

The Office will not pay for any unauthorized medical examinations arranged for by the claimant. A claimant does have the right to present any evidence, including reports of medical examination, in support of a claim for compensation that has been filed. The cost of any such examination, the presentation of a report of the examination and any incidental expenses will be the claimant's responsibility.

Sincerely,	•

Dear Sir:

We have received your claim alleging hearing loss due to exposure to hazardous noise at your place of employment. It will be necessary for you to answer the questions checked below before a determination can be made in your case. You may write your answers in the space provided or on a separate sheet of paper.

- 1. Describe your job duties, including job titles and locations. Be specific, include shop, building and floor numbers and length of time at each location.
- 2. For each location where you worked, describe the noise you were exposed to and the average number of hours exposed per day.
- 3. Why do you believe your hearing loss was caused by your work?
- 4. Give the date and circumstances of your last exposure to work-related noise that you considered harmful.

Theodore L. Gunderson RE:

Information has been requested concerning the exposure of former Special Agent Theodore L. Gunderson to the noise of firearms. He was appointed as a Special Agent on 12/10/51 and retired on 3/30/79.

Gunderson attended New Agents' Training during the period 12/10/51 to 3/25/52, and during that period he fired the .38-caliber revolver, .45-caliber Thompson Submachine Gun, 12-gauge shotgun, .30-caliber rifle, and the Federal Gas Gun. He fired approximately 850 rounds of ammunition during the above training period.

From 3/25/52 to 3/30/79, firearms training was afforded to Gunderson and he fired approximately 16,340 rounds of ammunition of various types during that period.

Gunderson attended In-Service in 1953, 1955, 1959, 1962(2), 1967, 1974, and 1979. During this training he fired approximately 3,600 rounds of ammunition of various calibers.

It is to be noted that in 1965 every field office was equipped with ear guards for use of the firearms instructors, and all Special Agents were instructed to continue to use cotton impregnated with petroleum jelly while on the firing line.

On 6/11/74, the use of ear guards (headsets) for Special Agents was made mandatory during firearms training.

#### TO WHOM IT MAY CONCERN:

RE: NOISE LEVEL TESTS OF FBI FIREARMS RANGES CONDUCTED BY THE FBI LABORATORY AT QUANTICO, VIRGINIA AND WASHINGTON, D. C.

Because available guidelines to estimate the hearing damage risk associated with impulse noise, such as gunfire, differ from the Maximum Recommended Noise Exposure regulations promulgated under authority of the Occupational Safety and Health Act of 1970 (Federal Register 36 (105), 10518 (May 29, 1971) definitions of measurements made as well as some detail regarding measurement conditions and equipment used are set out with the results of these measurements.

# GENERAL BASIS AND DEFINITIONS FOR MEASUREMENTS CONDUCTED

The tests conducted are based on available literature relating to hearing damage risk associated with impulse noise, such as gunfire, defined as brief noises lasting less than one second. Measurements have been made of two parameters (Peak Pressure Level and B-Duration) of the single impulse from various weapons with various ammunitions under typical and average circumstances.

These two parameters can be related to proposed damage-risk criterion for impulse noise (gunfire), Report of Working Group 57, NAS-NRC Committee on Hearing, Bioacoustics, and Biomedics (CHABA), W. C. Ward et al (July, 1968) also reported by the National Bureau of Standards in "Fundamentals of Noise: Measurement, Rating Schemes and Standards" published by U. S. Government Printing Office Publication NTID 300.15 for the U. S. Environmental Protection Agency (12-31-71). These two parameters are defined as follows:

- 1. The Peak Pressure Level (P) is the highest instantaneous pressure level (in decibels, Re. 2.0 x  $10-5~\text{N/M}^2$ ) reached at any time by the impulses, measured at the position of the ear but away from the individual.
- 2. The Pressure-Envelope Duration or B-Duration is the total time that the envelope of the pressure fluctuations, both positive and negative, are within 20 db of the peak pressure level. Included in this time is the duration of that part of any reflection pattern that is within 20 db of the peak level.

# MEASUREMENT TEST CONDITIONS AND MEASUREMENT EQUIPMENT OUTDOOR RANGE Measurements were conducted on the outdoor range of the FBI Academy at Quantico, Virginia, in an open field over grass. Measuring microphones were located in an orientation and at a distance from various weapons to approximate the location of the shooter's nearest ear. Weapons were fired with the shooter removing himself as far as possible from the field of the measuring microphone. Results for each weapon and type of ammunition are the average of several individual firings. Peak Pressure Levels (P) and B-Duration were measured from calibrated photographs of oscilloscope traces, and were checked against simultaneous impulse precision sound level meter measurements.

Equipment used to make these measurements includes Bruel and Kjaer (B&K) Impulse Precision Sound Level Meters type 2209, type 4136 1/4" condenser microphone associated preamplifiers and power supplies and Tektronix Model 564 Oscilloscope with C30 camera. Calibration was done with a B & K type 4220 Pistonphone.

It is felt these measurements represent typical and average sound levels and durations which would occur at the shooters' ears without ear protection for the weapons and ammunitions measured.

# RESULTS OF MEASUREMENTS

# Outdoor Range

The following measurement results are set out by type of weapon and ammunition and are the average of a number of firings of each. The two measurements given are P (Peak Pressure Level in decibels (db) and B (B-Duration in milliseconds):

- 1. Weapon: 38 caliber Smith and Wesson Special Revolver with 4-inch barrel
  - (a) Ammunition 148 grain target load P - 156 db B - 1.8 msec
  - (b) Ammunition 158 grain service load P - 157.7 db B - 1.9 msec
- 2. Weapon: 38 caliber Smith and Wesson Special Revolver with 2-inch barrel
  - (a) Ammunition 148 grain target load P - 159.2 db B - 1.6 msec

- 3. Weapon: Model 870 Remington Shotgun
  - (a) Ammunition Skeet load P - 160.8 db B - 2.9 msec
  - (b) Ammunition 00 buck shot P 160.3 db B 3.6 msec
  - (c) Ammunition rifle slug maximum load P 159.5 db B 6.3 msec
- 4. Weapon: .308 Remington Carbine Rifle with 150 grain ammunition
  - (a) Open area over grass
    P 159.6 db B 2.8 msec
  - (b) On Rifle Deck P - 158.3 db B - 5.4 msec

# MEASUREMENT TEST CONDITIONS

# INDOOR RANGE

Measurements were conducted on the indoor range at FBI Headquarters located in the basement of the Justice Department Building, Washington, D. C. Measurement microphones were located in an orientation and at a distance from the gun to approximate the location of the shooter's nearest ear. The gun was fired at one of the center shooter positions with the shooter removing himself as far as possible from the field of the measuring microphones and with the protective plexiglass screens closed behind the shooter. Results for each type of ammunition are the average of several individual firings. Peak Pressure Levels (P) and B-Durations were measured from calibrated photographs of oscilloscope traces and were checked against simultaneous impulse precision sound level measurements.

# RESULTS OF MEASUREMENTS

# Indoor Range

The following measurement results are for a 38 caliber Smith and Wesson Special Revolver with 4-inch barrel and are felt to represent typical and average sound levels and durations which would occur at the shooter's ears without ear protection on the indoor range. The two measurements given are P (Peak Pressure Level) and B (B-duration in milliseconds):

- 1. Ammunition: 148 grain target load P 154.4 db B 23.7 msec
- 2. Ammunition: 158 grain service load P 156.9 db B 23 msec

#### FEDERAL BUREAU OF INVESTIGATION

WASHINGTON, D.C. 20535

To Whom It May Concern:

Re: Theodore L. Gunderson File #A25-156216

Set forth herein are answers to questions 4, 5, 6, and 7 as requested by the Office of Workers' Compensation Programs (OWCP) per Letter CA-1081 (Rev. June, 1975) dated June 25, 1979.

- 4. Special Agents of the Federal Bureau of Investigation (FBI) receive triennial government physical examinations up to age 33 and annually thereafter. Since 1962, audiometer tests have been a part of the physical examinations when necessary equipment has been available. Frequently, when audiometer tests show hearing losses, the losses are noted by the examining physician. Special Agents are required to initial the physical examination papers thus constituting an FBI procedure for notifying a Special Agent when he has a hearing loss.
- 5. On the following indicated dates all Special Agents in Charge were advised in writing of the respective instructions which they were to impart to Special Agents assigned to their office:

May 4, 1954

TRAINING - FIREARMS -- The Bureau desires again to call to the attention of all investigative personnel the necessity of taking precautions to prevent injuries causing impairment of hearing while engaged in firearms training. SACs shall require that all Agents engaging in firearms training use cotton or ear plugs in the ears to prevent injury caused by gun blast. This applies not only to the Agents actually firing but also to those who may be coaching, observing, or otherwise in close proximity to the shooter. These instructions apply to both indoor and outdoor firearms training and to demonstration given by firearms instructors.

Re: Theodore L. Gunderson File #A25-156216

August 20, 1957

TRAINING - FIREARMS - PROTECTION OF HEARING -- The Bureau desires again to emphasize existing instructions concerning the use of cotton, ear plugs or other protective devices during the course of firearms training. The primary purpose of using such protection is to break the initial shock of the gun blast and prevent it from causing injury which could result in hearing impairment. Advice has been received as regards the use of cotton that it is more effective if it is dampened slightly. The type of protective measure used will be left to the choice of the individual but some such precaution must be used at all times during firearms training not only by the shooter but by coaches, observers, instructors or other individuals in the near vicinity of the shooting.

June 17, 1958

PROTECTION AGAINST HEARING LOSS FROM FIREARMS TRAINING -- A study has been conducted to see if additional protection against hearing loss can be afforded during firearms training. This study was occasioned by the increased number of hearing loss claims being submitted by Agents who based such claims on excessive noise to which they were exposed during firearms training. Studies to date reflect that dry cotton in the ear canals affords insufficient protection. You should immediately make a supply of cotton and Vaseline available so that cotton impregnated with Vaseline may be used during all firearms training periods. By placing Vaseline on the cotton prior to inserting it in the ear canal a much greater degree of protection is afforded against possible hearing damage. You should insure that all Agents are advised of the availability of the Vaseline and cotton and all participating Agents make use of them

September 10, 1965

FIREARMS TRAINING - EARMUFFS -- Every field office has been supplied with earmuffs for the use of the firearms instructors in conducting training for your office and in police firearms training schools. These ear protectors are not to be placed on your nonexpendable inventory but each SAC will be held accountable for their proper availability and use Special Agents receiving firearms training will continue to use cotton impregnated with petroleum jelly while on the firing line.

June 11, 1974

MANDATORY USE OF PROTECTIVE HEADSETS DURING FIREARMS TRAINING -- Effective immediately, the use of protective headsets for all Special Agents during firearms training is mandatory. Each Special Agent in Charge

Re: Theodore L. Gunderson File #A25-156216

is to insure these protective hearing devices are being used and that a sufficient number are available in his respective field office. If needed. Training Division.

- 6. Pertaining specifically to Mr. Gunderson, the first audiometer test given him at the time of his annual physical examination was on January 27, 1953. The examining report, January 3, 1973, advised Mr. Gunderson had a slight increase in the high frequency acuity, left ear, compared to the previous examinations. This was noted after his July, 1972 exposure to jet engines as #9 of the CA-4 previously advised. The consult examination, March 2, 1978, advised periodic tinnitus. The examining physician noted a moderate high frequency loss probably due to noise exposure on the physical report, March 12, 1979. The Bureau requested a signed statement regarding the wearing of ear protector's on the firing range, February 15, 1973. A copy of Mr. Gunderson's statement is attached.
- 7. The last date of exposure to firearms for Mr. Gunderson was March 22, 1979. At that time his pay rate was \$47,500 per annum.

## To Whom It May Concern

Mr. Theodore L. Gunderson entered on duty in the Federal Bureau of Investigation December 10, 1951, as a Special Agent, Grade GS 10, \$5500 per annum. Following a period of training, he performed investigative and supervisory duties and the duties of an Assistant Special Agent in Charge and Special Agent in Charge. During his employment with this Bureau, he was assigned to our Mobile, Knoxville, New York City, Albuquerque, New Haven, Philadelphia, Memohis, Dallas and Los Angeles Offices and Headquarters, Washington, D. C. Effective March 30, 1979, he retired in view of Section 8336 (c) 5 USC of the Civil Service Retirement Act. At that time, he occupied the position of Supervisory Special Agent, with a salary of \$47,500 per annum in Grade GS 18.

As an occupant of the position of Special Agent, he was charged with the duty of investigating violations of the laws of the United States, collecting evidence in cases in which the United States is or may be a party in interest and performed other duties imposed by law. In discharging these duties it is essential that a Special Agent be physically qualified for strenous duties including the required hearing standards. Special Agents participate in raids, arrests and the use of firearms, which are among the important duties of such position.

- pertinent, you may at any time ask for reconsideration of the decision. No special form is required, but the request must be in writing and state clearly the grounds upon which reconsideration is requested. Also, the request must be accompanied by evidence not previously submitted, such as medical reports, affidavits, or statements. In order to insure that you receive a new and independent evaluation of the evidence, your case will be reconsidered by persons other than those who made the original determination. Request for reconsideration, along with the new evidence, should be addressed to the Director, Office of Workers' Compensation Programs (OWCP), Washington, D. C. 20211.
  - (2) Hearing: If your injury occurred on or after July 4, 1966, you may, within 30 days after the date of the decision, ask for a hearing before an OWCP representative. At the hearing, you will be afforded an opportunity to present evidence, either oral or written, in further support of your claim. The hearing will be informal and will be held at a convenient location. You may be represented at the hearing by any person authorized by you in writing. As soon as possible after the hearing, a copy of the OWCP representative's decision will be mailed to you. You will have the right to appeal this decision. The request for hearing should be addressed to the Director, Office of Workers' Compensation Programs (OWCP), Washington, D. C. 20211.
  - (3) Appeal: If you believe that all available evidence has been submitted, you have the right to appeal to the Employees' Compensation Appeals Board for review of the decision. Review by the Appeals Board is limited to the evidence of record. No new evidence may be submitted to the Board. Request for review by the Appeals Board should be made within 90 days from the date of the enclosed compensation order and should be addressed to the Employees' Compensation Appeals Board, Washington, D. C. 20210. If you should request a hearing or reconsideration by the Office of Workers' Compensation Programs as indicated above, the 90-day period within which you may request review by the Appeals Board will run from the date of any later decision by the OWCP. For good cause shown the Appeals Board may waive the failure to file within 90 days if application is made within one year from the date of this decision.

WASHINGTON, D. C. 20211

In the matter of the claim for compensation under 5 USC 8101 et seq. of:

THEODORE L. GUNDERSON (Claimant)

REJECTION OF CLAIM
CASE NO. A25-156216

COMPENSATION ORDER

Employed by: Department of Justice Federal Bureau of In tigation Washington, D. C. 20535

Such investigation with respect to the above-entitled claim having been made as is considered necessary and after due consideration of the reports of record, this Office makes the following:

#### FINDINGS OF FACT

That the claimant was employed by the Federal Bureau of Investigation as a Special Agent for a period of 27 years and 4 months; that while so employed by the Bureau on July 12, 1972, the claimant was involved in the negotiations for the release of 113 passengers in a sky-jackers at Philadelphia National Airport; that while conversing with the sky-jackers, the claimant stood under three running jet engines for a period of two hours and forty-five minutes; that the claimant was exposed to further noise while practice shooting and making arrests; that timely written notice of injury and claim for scheduled award on account of permanent partial loss of hearing were respectively given and filed; that the agency's audio records were submitted for review; that said records did not meet the standards of the National Institute for Occupational;

that the claimant and the entire case file were referred to an Audiologist; that the results of the Audiologist's report revealed no rateable hearing loss; that the case file was reviewed by the District Medical Director in its entirety and he concurred with the Audiologist opinion.

Upon the foregoing findings of fact, it is ORDERED that the claim for compensation under 5 USC 8107 is hereby REJECTED for the following reason:

That the claimant has sustained no rateable hearing loss.
